DEEPAKKUMAR K

+91 7358226512 • deepakkumark6995@gmail.com • Chennai

I'm a results-driven Digital Marketer with hands-on expertise in SEO, Google Ads, and conversion tracking. I specialize in on-page optimization, off-page and technical SEO performance analysis, and Google Ads campaign creation and management. I also have experience implementing and analyzing conversion tracking to measure campaign performance and identify opportunities for improvement. I'm passionate about using data-driven digital marketing strategies to improve online visibility, generate quality traffic, and support business growth.

Projects

Digital Marketing Practical Experience
Website: mjgroups.org
- Gained hands-on SEO experience by optimizing a live website.
- On-Page SEO: optimized title tags, meta descriptions, headings, keyword placement, and image alt text.
- Off-Page SEO: carried out activities to support website authority and backlink opportunities.
- Technical SEO: checked performance and crawlability issues to support website indexing.
- Applied SEO best practices to improve site structure, search visibility, and overall optimization.

Low dose CT denoising

Motivation behind this research lies in the critical importance of high-quality CT images in healthcare. Improved image quality not only enhances diagnostic accuracy but also reduces radiation exposure to patients, a crucial consideration in medical imaging.
